Giving your bedroom a fresh look is as simple as changing the bedside lamps, scatters and accessories

## *Vintage vibes*

Copper and rose gold accessories add a romantic glow while still being on trend. Give the room a lift with faux greenery, a mod desk lamp and luxurious scatters.

The scatter cushions and lamp are from @home, the copper candles and faux plant are from SANTOS and the white ceramic diamond is from GardenShop. The bed, throw, side table and vintage trunks are all from SHF.
